ATS Quarterly Recap

ATS Consulting's 3rd quarter 2023 was marked by substantial new business growth in Payroll, HR and Workforce Management services. We provide white glove services to our clients, facilitating successful project launches, client side and technical support with our UKG expertise. Additionally, this quarter we focused on strengthening new and existing partnerships inside of the UKG eco-system. We worked collaboratively with our network of partners, fostering deeper and more strategic engagements that added value to our clients' and their projects. Select members of our team were able to participate in UKG Sales Kick-Off and Partner Summit last week, which was a great opportunity to see & meet new members of the UKG Sales & Partner Communities.
